Re: Section 63.71 Application of Telephone Electronics Corporation (TEC) for Authority to Discontinue Certain Services – Docket # 15-208

Ms. Dortch,

Telephone Electronics Corporation (TEC) was notified on September 1, 2015, that the bill notice provided to our customers on June 1, 2015 for our Discontinuance of Domestic Services Application was missing required information. TEC has revised our bill insert message and has notified customers with a new notice on October 1, 2015. The effective date is revised to October 31, 2015, subject to FCC approval. We have attached a copy of our revised notice for completion of our filing. Please note that our company address is found on the front page of the customer bill and not on the notice that is inserted at the end of the bill.

Sincerely,

Lisa Wigington
Director of Revenue Assurance
and Regulatory Compliance

Notice of Discontinuance of Operator Services

Due to the significant decline of the use of operator services over the years, TEC will be discontinuing the following operator services: person to person, collect calls, third number billed, busy line verification and busy line interruption services in Alabama, Louisiana, Mississippi, Arkansas and Tennessee, effective October 31, 2015, subject to FCC approval. The Section 214 Discontinuance of Service request was filed with the FCC on June 1, 2015. The FCC will normally authorize this proposed discontinuance of service unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 15 days after the Commission releases public notice of the proposed discontinuance. You may file your comments electronically through the FCC's Electronic Comment Filing System using the docket number established in the Commission's public notice for this proceeding, or you may address them to the Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, Washington, DC 20554, and include in your comments a reference to the Section 63.71 Application of Telephone Electronics Corporation (TEC). Comments should include specific information about the impact of this proposed discontinuance (or reduction or impairment) upon you or your company, including any inability to acquire reasonable substitute service.
